WHO WE ARE

About G.S. Constructions

G.S. Constructions is a trusted mechanical engineering contractor headquartered in Srikalahasti, Andhra Pradesh, led by Proprietor **Sagi Radhika** and Director **G. Bhaskara Rao** — a field engineer with 28+ years of hands-on experience. Together they have grown the company into one of the region's most reliable names in industrial construction and maintenance. From blast furnace overhauls to large-scale DIP plant erection, we deliver precision-engineered solutions for India's most demanding industrial clients. We are a regular contractor for Srikalahasti Pipes Limited and Electro Steel Castings, and recently completed major works for Evonith Values Steels in Maharashtra.

Our Mission

Deliver precision-engineered mechanical construction with uncompromising safety and quality, on time, every time.

Our Vision

To be recognised as South India's most dependable mechanical contractor.

Our Strengths

28+ years field expertise, 130+ strong skilled workforce, in-house fabrication workshop.

“SAFETY · QUALITY · SURITY”

Our Core Motto — Every Project, Every Day

OUR CAPABILITIES

Engineering Services

Structural Fabrication & Erection

Structural steel fabrication, erection and alignment for sheds, platforms, conveyor supports, chimneys and plant structures.

Equipment Erection & Alignment

Precision erection and alignment of furnaces, fans, pumps, conveyors, cranes and heavy rotating machinery.

Pipeline Fabrication & Laying

Fabrication and installation of MS, SS and hydraulic pipelines, steam, air and water lines — all sizes.

Plate Works — Chimneys & Tanks

Rolling, bending and fabrication of tanks, water towers, chimneys, ducts, hoppers with full welding certification.

Shutdown & Maintenance Works

Annual, monthly and emergency shutdown management and capital overhaul of process plants and furnaces.

Sheeting, Painting & Finishing

A/C sheet & colour-coated sheet fixing, industrial painting, grills, gates and shed construction.

Man Power Supply

Skilled and semi-skilled manpower deployment for mechanical maintenance and production activities.

ANNEXURE I

Plant & Infrastructure

#	Description	Quantity
1	Hydra Crane – 17 MT	01
2	Plate Rolling & Bending Machine, 2.00 Mtr Width	01
3	Welding M/C Rectifiers, 400 Amps	Adequate Qty
4	Welding M/C Transformers, 450 Amps	Adequate Qty
5	Magnet Drilling, Core Cutting & Drilling M/C	Adequate Qty
6	Pug Cutting, AG7 & AG4 Grinding Machines	Adequate Qty
7	Chain Puller Blocks — 5 MT & 2 MT Capacity	Sufficient Qty
8	Erection Tackle — Ropes, Shackles, Jacks, Turnbuckles	Sufficient Qty
9	Single & Double Pulleys	08
10	Precision Tools — Tapes, Levels, Calipers, etc.	Sufficient Qty

ANNEXURE V

About Man Power

03 Site In-Charge	10 Supervisors	06 Fabricators	15 Fitters
06 Asst. Fitters	12 6G Welders	06 Structural Welders	08 TAK Welders
08 Cutters	15 Riggers	20 Helpers	06 Grinders
04 Rigger Foreman	02 Safety In-Charge	02 Store Keepers	01 Electrician
01 Driver	01 Accountant	01 Purchase Officer	01 HR Officer

OUR THREE CORE PILLARS

Safety, Quality & Compliance

Safety First

Dedicated safety officers on every project, full PPE compliance and daily toolbox talks.

Quality Assurance

All welding by certified welders (6G where required); dimensional checks at every stage.

Compliance & Reliability

GST-registered (37EYVPS9437N1ZW). Fully compliant with statutory labour regulations.

TRUSTED BY

Key Clients

Srikalahasti Pipes Ltd	Electro Steel Castings	JSW Group
Evonith Values Steels	SBQ Steels	BDJ Oxides
Nanda Chemicals	Tamilnadu Coke & Power	TTD

SELECTED WORK

Landmark Projects

Srikalahasti Pipes Limited	Ongoing structural & equipment contract since 2015.
Evonith Values Steels Ltd, Maharashtra	Complete DIP plant equipment erection & structural works.
TTD Pediatric Children's Hospital, Tirumala	Structural steel fabrication & erection for this landmark healthcare project.
BDJ Oxides Pvt Ltd, Naidupeta	Full zinc oxide process plant — structural, equipment, ducting, chimneys & piping.
Nanda Chemicals Pvt Ltd, SPSR Nellore	Structural works for chemical processing plant.
Tamilnadu Coke and Power Ltd	DG exhaust tower with chimney pipe — structural fabrication and erection.

OUR FACILITY

Workshop

Our dedicated workshop facility near Yerpedu serves as the primary base for in-house steel fabrication, plate bending, welding operations and equipment preparation before deployment to project sites across South India — equipped with 400A & 450A welding rectifiers, plate rolling up to 2m width, and full structural & plate fabrication capability.
